peoplefone

Full Stack Developer (full remote)

Do you share our passion for disruptive technology in the telecommunication industry and want to contribute to the success in 7 European countries?
We are looking for a passionate and engaged Full stack Web Developer working remotely and dedicated to the further development of our portal and API, 100% created in-house.

Your Tasks

- Development of our REST APIs
- Development of new features in our PORTAL UI based on Laravel
- Integration of new service (internal or 3rdParty) connected with our cloud PBX

Your Skills

- Excellent knowledge of PHP and Laravel (3+ years of professional experience)
- Excellent knowledge of JS, Vue.js or JQuery, node JS a plus
- A good sense for UX and experience in the field of Responsive Design is a plus
- Experience with Devops / deployment environments (GitLab CI/CD, Docker) is a plus

Your Profile

- You are independent, proactive, and interested to work in a team where you can make a difference
- have passion for code reuse and quality awareness
- being creative and open personality who is solution-oriented.

The peoplefone group is a European leader of the IP telephony for business and residential customers. The group was founded in 2005 and is today present in Switzerland, Germany, Austria, France, Poland, Slovakia and Lithuania. Our competitive advantage is the development of innovative products combined with our strong entrepreneur and family spirit!
