Laravel Software Engineer (m/w/d, 80% - 100%)

peoplefone has been developing IP telephony platforms that connect companies in Switzerland, Germany, Austria, France, Poland, Slovakia and Lithuania since 2005. Our competitive advantage is the development of innovative products combined with our strong entrepreneur and family-oriented spirit!

Do you love elegant, clean code? Want to develop portals, APIs and tools that customers work with every day? Then we'd love to hear from you!

Your impact

- **Portal development** - continuously develop our self-service portal (Laravel + Livewire + Vue)
- **API design** - build robust REST endpoints with clean versioning
- **Service integration** - integrate internal microservices or third-party SaaS providers into our cloud PBX
- **Ensure quality** - code reviews, pair programming, automated testing and CI/CD via GitLab & Kubernetes
- **Live Scrum** - daily stand-ups, sprint reviews and retrospectives with the entire team
